

Quarter Scale Cracked Wall w/moving parts

Known as the "WALL" this ECP model display depicts a view of an interior and exterior wall of a home showing the "Before and After" of how ECP's complete product line can be used to fix your customers foundation issues.

The 3d model is packaged in a military style hard case with foam throughout the interior.

This scale model was created with the original CAD drawings, and 3D printed in Polylactic Acid (PLA). PLA is a durable, lightweight, biodegradable corn-based plastic.

Valued at \$3499.00
