

10% OFF FOR ALL ECP CONTRACTORS

YOUR BUSINESS IS GROWING

Keep Up By Using The #1 Foundation Repair Drawing & Bidding App

ECP LINQ

Powered By Contractor Accelerator

Our mobile software streamlines your business's entire workflow without forcing you into a box. Contractor Accelerator was built with tools specifically for the foundation repair industry, and the system is fully customizable to your company.

- Bidding & Drawing
- Scheduling & Reminders
- Electronic Contracts & Signatures
- Project Management Pipeline
- Customer Relationship Manager (CRM)
- Storage & Reporting

"Keeping a business organized would be a nightmare without the software. Everything is so clean and clear. The bid looks so professional. We love the product descriptions and media. It is so much easier for the person we talk with to regurgitate the information to their spouse and make a decision later. It makes it easy for someone to buy from us too. We get accepted bids at 3am."

- Tyler Watkins, Everlevel Concrete Repair

Why Choose Us?

20% Higher Close Rate

Streamline Scheduling

Organize Documents

Team Accountability

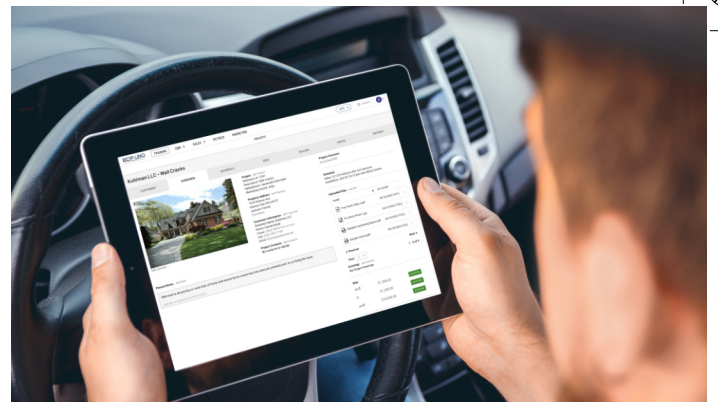

Save 40+ Hours/Week

Business Growth

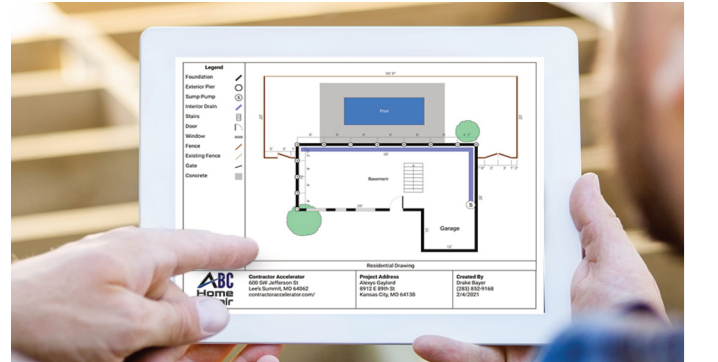

Organize & Store

Get organized with our robust Customer Relationship Manager (CRM) that includes customer information, notes, document storage and our unique appointment scheduler with integrated maps. Whether you are on the go or at the office, you have access to everything you need to run your business.

Streamline & Automate

Save time when you create, present, and win jobs on the first visit. Make custom drawings and use service templates with custom descriptions and component-based pricing calculations to send detailed, professional bids and contracts before leaving the driveway.

Monitor & Complete

Gain visibility to every job from anywhere. Manage projects and know when a contract is signed. See an overview of all your active projects at a high level, or drill in to see exactly where each project is, what comes next, and who is responsible

Grow & Profit

Grow your business without sacrificing personal time, overworking your team, or hiring more employees. With the added organization, time savings, project visibility, and cumulative reporting, it's never been easier to see a clear path to reaching your goals.
